

IMPACT STATEMENT

2021-2022

A MESSAGE FROM OUR CEO

Your support has helped us to create habitat for rare flora and fauna, to plant on degraded land across Australia, and to work with community groups to plant trees. Your practical action for our climate is creating a legacy for future generations. Thank you!

CHARITY INCOME BY SOURCE

CHARITY EXPENSES BY SOURCE

*To be confirmed by auditor by Feb 2023

"I donate to this cause as I believe in making change/impact. I like the projects undertaken and how they are real, tangible and relevant to my part of the world." - David

"A big concern when donating to charities and carbon funds is you're not always quite sure where your money is going so it's warming to hear you share information about what you're doing." - Uma

"I sincerely believe organisations like CPA are one of the few viable, measurable ways we can start to reduce the ever-mounting catastrophe that is climate change, so I am so very grateful for the work you do." - Elliot

"I chose Carbon Positive because it was an Australian not-for-profit with a credible track record and projects based in this country." - Eddy

Upcoming Plans

PROTECTING RARE SPECIES Planting for Habitat

- Protecting and planting land that endangered Carnaby's Black Cockatoos use as a major food source
- Planting to protect rare flora at Warralakin, where there are crucial conservation species
- Monitoring and infill planting at Nimbin to provide vital Koala habitat

PLANT TREES AUSTRALIA Enabling Local Action

- Planting the largest Miyawaki Forest in Australia in QLD
- Working with Regen the Plains in Goulburn Valley, VIC
- Creating a sensory garden at Banksia Gardens, NSW

NATURE POSITIVE PLANTING Restoring Australia

- Planting 185 ha of cleared land with biodiverse native species at Warralakin, WA
- Restoring a further 300 ha at Eurardy Reserve
- Planting on saline-impacted degraded land throughout WA's Wheatbelt
