

IMPACT STATEMENT

2022-2023

A MESSAGE FROM OUR CEO

Your generous support this past year has been transformative. Thanks to you, we've restored habitat for fauna, rehabilitated degraded lands across Australia, and empowered community groups to plant trees. Your practical action is not just addressing climate change; it's creating a lasting legacy for future generations.

CHARITY EXPENSES BY SOURCE

**To be confirmed by auditor by Feb 2023*

"I signed up after taking your carbon quiz (and being shocked at the results!). I want to do as much as I can to reduce my impact and I was very happy with the effectiveness of CPA after reading about some of your projects." - Josie

"Simply, I wanted to give something back to our beautiful state and country. I chose CPA as I liked the in-depth information and research you provided, and the different regions we can contribute to. I wanted to focus on projects in WA, as this is my home state." - Vicky

"We're pleased to welcome Carbon Positive Australia as a new partner in support of our campaign to reduce our environmental impact. Their work aligns seamlessly with our sustainability goals, reinforcing our commitment to eco-conscious practices in every facet of our operations."

- Kendra Naidoo, General Manager Venue Operations, Perth Convention and Exhibition Centre

Upcoming Plans

PROTECTING RARE SPECIES

Planting for Habitat

- Providing a food source for native birds at [Talbot, WA](#)
- Restoring habitat for the endangered noisy scrub bird at [Many Peaks, WA](#)
- Extending an existing Nature Reserve for Malleefowl at [Warralakin, WA](#)
- Planting critical habitat for koalas and platypuses at [Bangalow, NSW](#)

COMMUNITY PLANTING

Enabling Local Action

- Inspiring young stewards through planting [Miyawaki School Projects, WA](#)
- Connecting people, music and Country with [Activate Tree Planting, Regional WA](#)
- Mitigating urban heat island effects through community planting in [Queanbeyan, NSW](#)

NATURE POSITIVE PLANTING

Restoring Australia

- Planting an additional 70ha of cleared land with biodiverse native species at [Warralakin, WA](#)
- Adding density and biodiversity to the sandplain restoration at [Eurardy Reserve, WA](#)
- Planting to restore salt-affected land in WA's Wheatbelt
